## ●●●BEFORE USE●●●

*Director Designs* is a scripted file: Adobe File Readers and Microsoft File readers will allow editing. Mac Users need to download Adobe Reader (free). Preview will not allow for selecting the drop-down menu

<https://acrobat.adobe.com/us/en/acrobat/pdf-reader.html>

Any attempt to transfer the file or break encryption can result in the script not working. This means that you should ALWAYS keep the original file safely stored on your computer. Use "save as" to create a backup version.

## How to use

*Director Designs* is a script-programmed PDF in a customizable book format that can be manipulated, printed and distributed by String and Band Directors. One PDF houses the entire band set - set up in such a way so you only need to print a page per exercise and everyone can play. It solves a problem, and does so in an elegant, technologically forward way. Directors, at their fingertips, have a massive collection of easy to design, print and play exercises for everyday use.

- Select the Drop-down menu(s) on each page and select the level and key/type of exercise that will best serve your group (today, for the semester, or whatever time period you'd like).
- Press [Design] and the book will populate for you. Always professionally engraved, immediately accessible, and meaningful to your students.
- Once the book is set up how you'd like, select Print
- Pass physical copies to your students, and they can immediately start to play. The order and design are your choice, as you need it, when you need it.
